3 BUTTON CONTROL

Intuitive controls to set the ideal illumination for any task. Choose from 3 brightness levels suited to detailed or general work

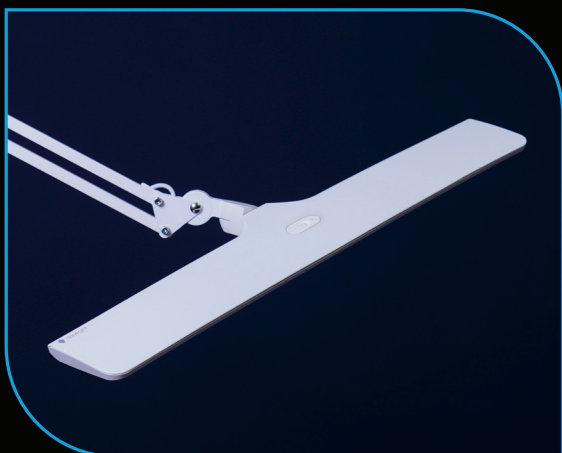

SLEEK, STREAMLINED ARM DESIGN

Engineered for smooth, accurate positioning. The traditional parallel arm offers controlled adjustments for precise light placement

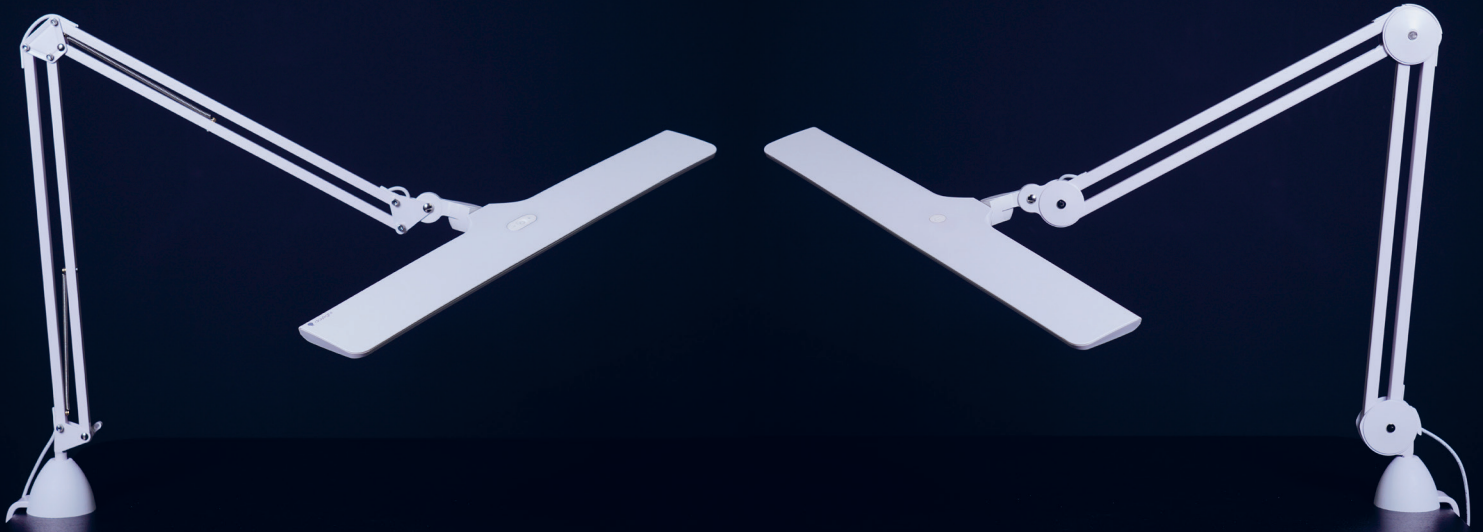

SPRING-BALANCED MECHANISM

The spring balanced arm stays exactly where you position it, delivering stable, consistent lighting for focused tasks

WIDE LIGHT SPREAD

Designed to illuminate a broad workspace evenly, providing clear, shadow-free visibility across your entire surface area
