

FlexiVision 2™

D31077

FLOOR LAMP

Features Sheet

DESIGNED WITH RNIB

Developed in collaboration with the RNIB and low vision specialists to provide optimal lighting and comfort for users with visual impairments

PRECISE LIGHT CONTROL

Easily adjust the brightness and choose between Daylight 6000K, Cool Light 4000K, or Warm Light 2700K temperatures to suit your task or environment

TACTILE USER INTERFACE

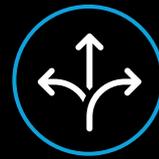

Colour-coded, tactile buttons make switching between light settings simple, even for users with low vision or limited dexterity

95+
CRI

SEE TRUE COLOURS

High quality 6,000K Daylight LEDs, offering 95+ CRI for natural, bright lighting that ensures accurate colour matching

FLEXIBLE POSITIONING

A fully adjustable arm and multi-swivel head let you direct light exactly where you need it — with minimal effort

LOW HEAT ILLUMINATION

The specially designed low-heat shade stays cool to the touch, ensuring comfort and safety during extended use
